

ZYLIA

Zylia develops innovative, world-class recording technologies and turns them into products that improve the lives of musicians and audio creatives. With a passionate and dedicated team of experts in audio research, software, business and product development, the company crafts and delivers products with the potential to redefine and revolutionize the way sound and musical performances are recorded.

Our key product ZYLIA Portable Recording Studio is a one-mic recording system that allows to record a whole 360 audio scene and separate sound sources into independent soundtracks (guitar, violin, vocals, etc.). Our product is an easy-to-use device that is used by musicians, bands, recording studios and sound engineers all around the world. More information about the product can be found at <http://www.zylia.co>

We are looking for:

Business Analyst

Location: Poznań

Zylia is seeking a business analyst. As a member of the Zylia team, you will have a chance to become part of a 3D audio recording revolution. Are you interested in developing real-time systems for next generation hardware and software products? You will work closely with a team of engineers to deliver cutting-edge projects for our customers around the world.

Work at Zylia means:

- participating in creation of cutting edge audio recording technology (the ZYLIA ZM-1 microphone array);
- making an impact on our existing processes and creating new ones – we're always open to brilliant ideas;
- working with a diverse group of people from various fields of expertise (software engineers, electronics engineers, audio and sound engineers, musicians, artists);
- working in a very open and challenging environment.

Her/his role will be:

- manage our own and external projects and work closely with the engineering team;
- communicate with stakeholders and define priorities and tasks for engineers;
- rely information and requirements given by stakeholders to the engineering team and report back the results in understandable way to our clients;
- coordinating user acceptance testing activities with our clients;
- taking responsibility for the project and it's development process;
- developing user stories with acceptance criteria;
- sharing knowledge and experience with the whole Zylia team.

A perfect candidate:

- have good background in software engineering, electronics or digital signal processing;
- a minimum of 5 years' experience working as a Business Analyst;
- a minimum of 3 years' experience in an Agile Scrum environment;
- should have a very good command of written and spoken English;
- should have experience and understanding of Agile and Scrum methodologies;
- experience documenting requirements in User Story format with clear Acceptance Criteria;
- can easily communicate within our company (engineers, board, stakeholders) and outside (clients);

- readiness for international travel according to company needs;
- knows how to identify challenges and blockers and actively find solutions to them;
- knows how to advise, negotiate and be proactive inside our company and with clients;
- have a passion for new technologies.

If you are enthusiastic to shape the future of audio, together with us, feel free to contact us. Please, send your CV and cover letter (with a title - Business Analyst) to jobs@zylia.pl

Please, attach in your application: " I hereby agree to the processing of personal data included in my application for the needs necessary to carry out the recruitment process carried out by Zylia Sp. Z o.o. in accordance with art. 6 par. 1 lit. a Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC (General Data Protection Regulation).

I also consent to processing of my personal data for the purposes of any future recruitment processes."
